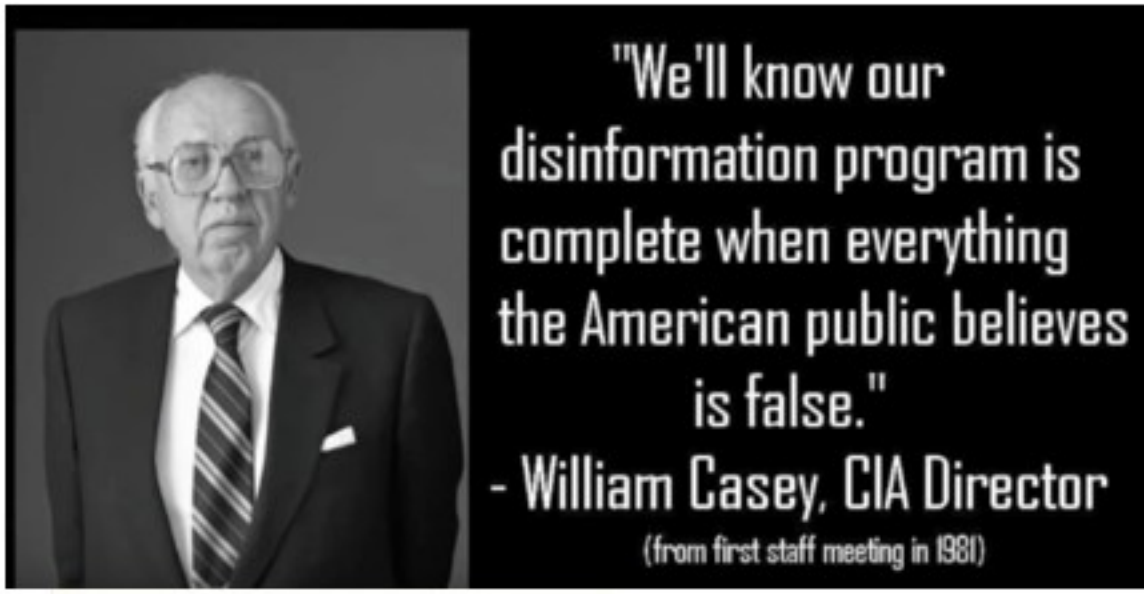
THERE IS SOMETHING WRONG IN THE HEADS OF PEOPLE WITH TRUMP DERANGEMENT SYNDROME (TDS)
THINK ABOUT WHAT I AM SAYING BELOW

https://www.youtube.com/watch?v=ngglQTwS6Lo&t=17s

The FAKED NEW CORPORATE MEDIA is a front for DEEP STATE PROPAGANDA we all know this who DO OUR HOMEWORK. People on the left, people with TDS need to understand that they are being used as puppets by the DEEP STATE to foment hatred and to pass around misinformation, disinformation and lies. They run round spewing Trump hatred, which is EXACTLY WHAT THE DEEP STATE WANTS THEM TO DO. Something prevents them from realizing them WHAT IS IT?????

I wonder if there is something wrong with these people. I say this because we are living in what is referred to as the End Time Delusion of Mankind prophetically that Jesus and prophecy has warned us about. I do a lot of research about how people are being deceived today and one of the things that rings a bell for me is that something is not right in the heads of people with TDS. Yes they watch CORPORATE MEDIA UPDATES which are always imprinting false information into their heads but I can tell the difference and most of you can tell the difference and know the FAKED

MEDIA is doing this deliberately and why but WHY CAN'T THE TDS'ERS. WHAT IS WRONG WITH THESE PEOPLE???



"We'll know our disinformation program is complete when everything the American public believes is false."

Joseph Goebbels
"Propaganda works best when those who are being manipulated are confident they are acting on their own free will."
Dr. Goebbels

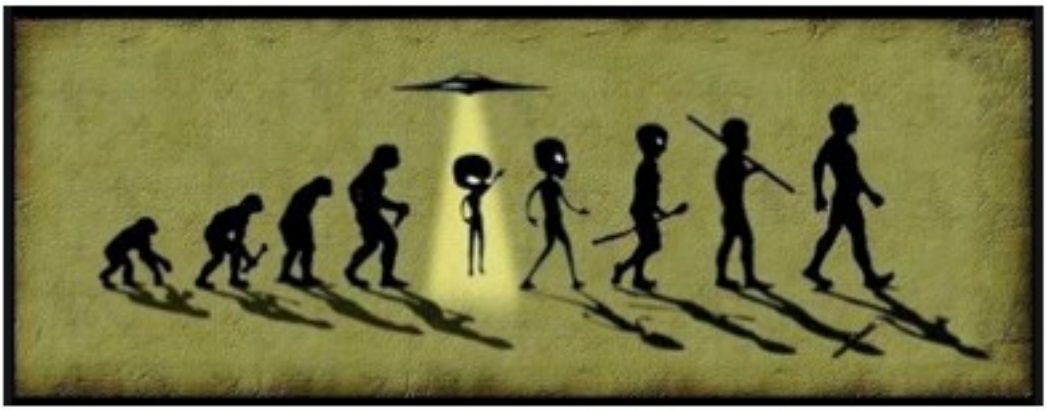
I am so sick and tired of these programmed people with TDS that I do not want them on my Email list. They drag everybody down with their hateful misinformation, disinformation and lies.

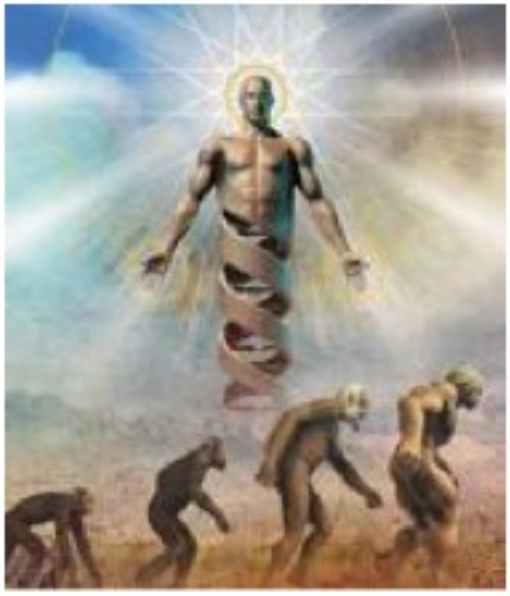
We know that the goal of the DEEP STATE is to hit Trump and his administration with LAWSUIT AFTER LAWSUIT to continue to add fuel to their pile of lies and deceit. They have told us that. Most of us sit back and play the violin trying to drown them out. Nothing they say has value so why waste our time with these programmed TDS puppets anyway.

It is not as simple as they choose to be a Democrat or Republican. I have been a Democrat all of my life and am NOW ON THE TRUMP TEAM. I see how badly infiltrated the Democratic Party has become WHY CAN'T PEOPLE WITH TDS????

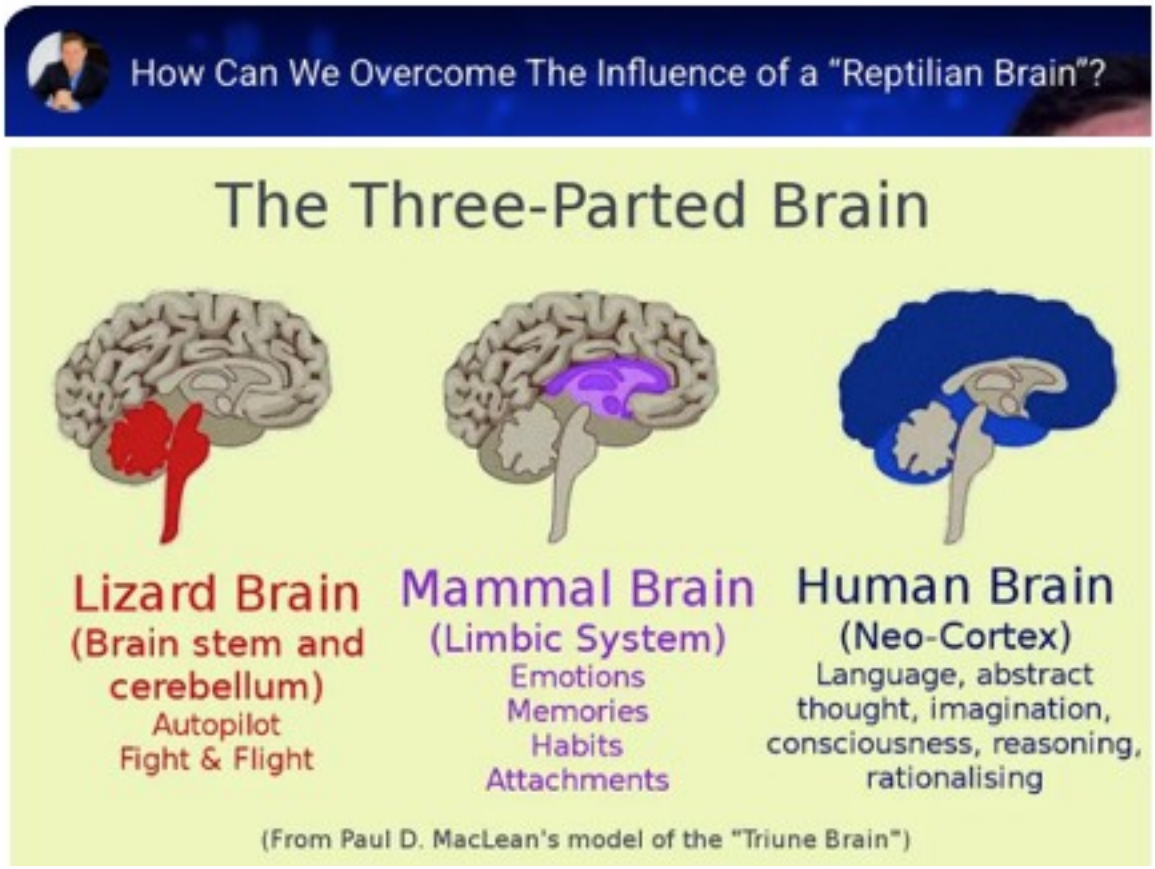
People who HATE TRUMP complain about what is in these phony lawsuits in order to HATE TRUMP, yet most of us see this is all propaganda WHY DON'T TDS'ERS???? If you don't like that Trump has an attitude and swears GET OVER IT. I do not like it either. He may use it as a defense mechanism, as a way to let the DEEP STATE PLAYERS know he’s not going to take their crap, and at the same time boast about the good things he is doing as his own press secretary. Let's move beyond that and DIG DEEPER.

MONKEY TO MAN EVOLUTION? I DON'T THINK SO.
DO 85% OF THE POPULATION CARRY RHESUS MONKEY PROTEIN? YES THEY DO HOW DID THAT HAPPEN AND WHO WAS THE REAL MISSING LINK





One of the things we never talk about is the Reptilian Brain we all have. The Reptilian Brain was added to the human body. We were not born with a Reptilian Brain despite what others may say who attempt to promote the Evolution Theory.



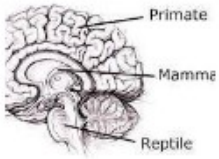
I believe that ORIGINAL MAN was born with a Mammalian Brain and Human Brain and that the Lizard or Reptilian brain was a added feature installed in early human alien hybrid races by aliens who were the so called INTELLIGENT DESIGNERS.

It seems to be the part of our brain that can be MANIPULATED BY OUTSIDE INFLUENCES and by that I mean aliens and certain technologies such as Voice To Skull Technology and the list goes on.

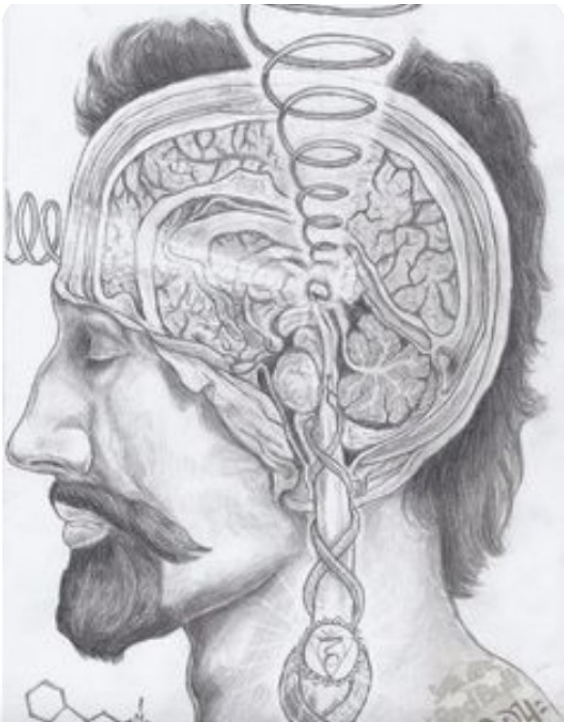
What does that have to do with TDS YOU ASK?

AI Overview

The "reptilian brain" is easily influenced by factors related to survival, such as fear, threats, and immediate gratification, which can lead to impulsive and illogical decisions. However, the more complex parts of the brain, like the cortex, can override these impulses through conscious thought, logic, and self-awareness. While this primal part of the brain is a fundamental part of human behavior, the ability to consciously regulate its influence is a key aspect of human cognition.



I am not going to teach you about the Reptilian part of our brain except to say that I am guessing the ASM SECT ZIONIST KHAZARIAN DEEP STATE BLOODLINE HAVE HUGE REPTILIAN BRAINS. Hah! Hah! I added some general information below about the Reptilian Brain.



WHO IS USING TECHNOLOGY TO TAP INTO THE REPTILAN BRAN

What is the voice of God technique?

The Voice of God voice over technique refers to a specific style of voice over that embodies a deep, resonating, and powerful voice, akin to what one would imagine a deity or divine entity might sound like. Jun 5, 2023

My interest is in how and what can activate the Reptilian Brain and prevent the MORE IMPORTANT parts of our brain from participating in the thought process and how we act and think under certain situations.

I believe that many of these LONE GUNMAN patsies are being controlled by OUTSIDE TECHNOLOGIES LIKE VOICE TO SKULL TECHNOLOGIES that over ride the two more important parts of our triple brain functions.

LETS QUICK ADD MARCION THE ORGANIZER OF THE ORIGINAL CHRISTIAN MOVEMENT WITH AND FOR THE APOSTLE PAUL WHO WAS TURNED INTO A VILLAN IN AN ATEEMPT TO DISCREDIT HIM AFTER HE DIED which is very similar to what Trump i s going through today.

The Jewish and Roman Orthodox Catholic and Christian Churches murdered millions of people who would not convert to Roman Catholicism. This is not NEW NEWS. They were demonized, called names and killed.

After Marcion died the JROCCC overlords falsely accused him as being a Gnostic, DESTROYED his ORIGINAL BIBLE texts, burned or took over he churches, in order to discredit him both then and now. Many different movements back then taught early Christian teachings including the Gnostic's.

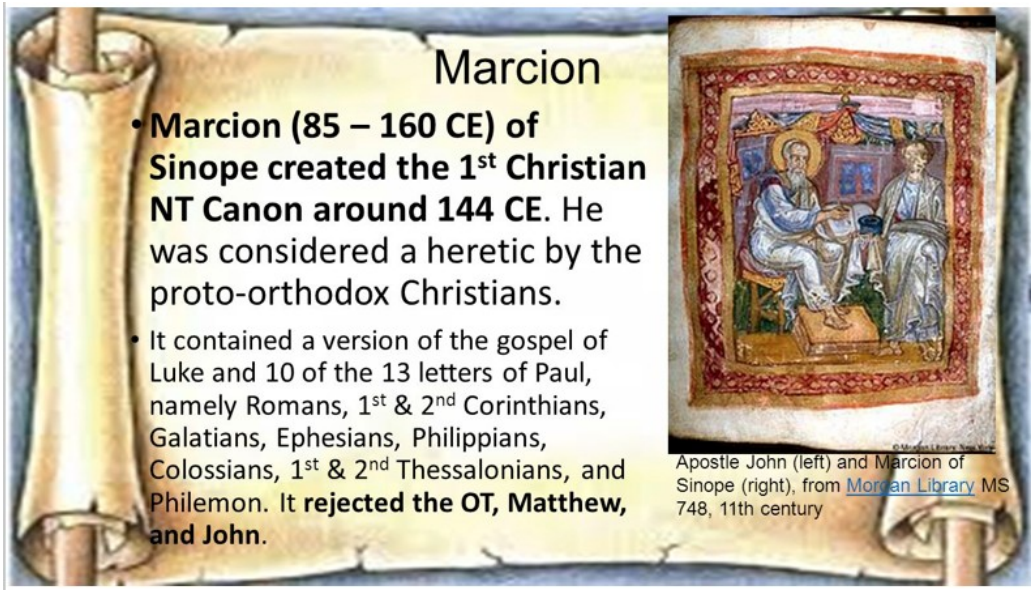
The Apostle Paul did not write Acts it was attributed to Luke a companion of Paul who believed in Jesus and Our Heavenly Father.



Marcion
• Marcion (85 – 160 CE) of Sinope created the 1st Christian NT Canon around 144 CE. He was considered a heretic by the proto-orthodox Christians.
• It contained a version of the gospel of Luke and 10 of the 13 letters of Paul, namely Romans, 1st & 2nd Corinthians, Galatians, Ephesians, Philippians, Colossians, 1st & 2nd Thessalonians, and Philemon. It rejected the OT, Matthew, and John.
Apostle John (left) and Marcion of Sinope (right), from Morgan Library MS 748, 11th century

We do not have these original texts of Paul today because the JROCCC BANNED AND BURNED THEM while creating their own versions of Paul's letters for their Roman Bibles. As a matter of fact we do not have original texts of any of the books in the Roman Bibles all we have are copies of copies and snippets of texts.

Marcionism shares Gnosticism's dualistic rejection of the Old Testament God as the evil creator of the material world but differs from it by postulating two distinct gods, the vain Yahweh and the benevolent supreme God revealed by Jesus, rather than the single evil demiurge found in most Gnostic systems. While Gnosticism emphasizes achieving divine knowledge (gnosis) for salvation, Marcion emphasized faith in Christ's act of liberation from the creator's world through strict asceticism.

Ephesians 6:12

THIS IS WHERE WE HAVE TO BE DISCERNING WHEN IT COMES TO THE MISINFORMATION, DISINFORMATION AND LIES IN THE BIBLE. THIS IS WHERE WE DISCOVER THAT THERE WERE DIFFERENT GODS BLENDED TOGETHER LABELED AS GOD LORD ETC. IN THE BIBLE.

Most Christians do not know that the Roman Bibles were not the first Christian Bibles. Most people do not realize that the Apostle writings of the Apostle Paul were compiled by a very wealthy shipping merchant whose father was a high ranking official associated with the ORIGINAL PAULENE Christian Church after Jesus left the earth that was in competition with the then newly forming Roman Catholic Church.

This is critical lost information because if you study this data you will realize that the ORIGINAL PAULENE CHRISTIAN CHURCH did not teach what is taught in our Bibles and was very clear that the Jews and the hybrid tribes in the Middle East worshipped ALIENS.

The Jews worshipped (Yahweh Ildabaoth the Demiurge (YHWH) while the HEBREWS worshipped a SATANIC BEINGS I REFER TO AS god EL the leader of the Elohim NORDIC FALLEN WATCHER ALIENS in Genesis who is NOT OUR HEAVENLY FATHER OR JESUS.

Joel, the Old Testament prophet, worshipped **Yahweh** (also known as the Lord), the God of Israel. The name "Joel" itself means "Yahweh is God," signifying his devotion. His book contains messages of repentance and prophecy from God to the people of Judah.

Luke is saying the same thing but in reference to Jesus and Our Heavenly Father that would be communicating with us today.

We have to realize that Aliens and the DEEP STATE SHADOW GOVERNMENT and MILITARY are using technology to communicate with people today. Jesus warned us about these evil "Powers and Principalities of the air who are the real rulers of the world we live in" right now

With that being said, look at this reference here regarding the fact that ancients were taught that the gods would be communicating with people today. Look at all of the prophets out there claiming they hear the VOICE OF GOD in their heads. Jesus said to be very careful to "test ever spirit."

The shocking reality of mind control, UFO's, implants and the psychotronic agenda of the New World Order.

There is a secret plot by New World Order to control the Earth's population for a sinister agenda. New methods of mind control technology were first introduced in the 1950s from the top-secret CIA MKULTRA project. This operation researched and perfected methods to control the minds of individuals to do the unholy bidding of their secret government masters.

Many unsuspecting people were turned into mind controlled assassins, ready to murder with just a secret command from their controllers. Others, especially children, were programmed to offer their bodies sexually to high-ranking politicians and big corporate executives.

Today, thousands of individuals worldwide are secretly controlled through brain implants and microwave transmissions. As well, many UFO abductees maintain they have become part of a brainwashing program by aliens and the military.

There is little time left to make the rest of the world aware of the nefarious operations now in effect. Our rights and freedoms as human beings are in jeopardy if these mind control operations continue to go unheeded.

Voice to Skull Technology and Electronic Harassment : V2K Targeting

The Law Offices of James L. Arrasmith | July 23, 2024

In today's increasingly digital world, concerns about privacy and personal security are on the rise. One emerging issue that has gained attention in recent years is the concept of "voice to skull" technology and electronic harassment. While these topics may sound like science fiction, they raise important legal and ethical questions that deserve careful consideration.

What is Voice to Skull Technology?

The potential for technology to be used as a tool for harassment raises significant legal and ethical questions. Key issues include:

- Privacy rights and protections against unlawful surveillance
- Criminal laws around stalking, threats, and harassment
- Regulation of emerging technologies with potential for misuse
- Mental health considerations for those experiencing symptoms
- Burden of proof in cases involving hard-to-trace electronic harassment

As an **experienced civil rights attorney**, I understand how distressing these issues can be for those affected. While many claims of electronic harassment are difficult to verify, all allegations deserve to be taken seriously and investigated thoroughly.

9. Synthetic Telepathy
10. Remote Neural Monitoring
11. Microwave Hearing
12. Targeted Individuals
13. Electromagnetic Harassment
14. ***Privacy Rights***
15. Surveillance Technology

Electronic harassment is a broader term that encompasses various forms of tech-enabled stalking, intimidation, or abuse. This may include:

- Cyberstalking and online threats
- Hacking of personal accounts and devices
- Tracking location through GPS or other means
- Using surveillance technology to spy on victims
- Manipulating smart home devices to cause distress

Some individuals claim to experience more extreme forms of electronic harassment involving directed energy weapons or other advanced technologies.

From Reptilian Survival to Neomammalian Intellect: Journeying Through the Triune Brain

https://afsalms7.medium.com/from-reptilian-survival-to-neomammalian-intellect-journeying-through-the-triune-brain-7492c369e238

“Have you ever noticed these patterns in your everyday life? We tend to give money to poor people at the door of a hotel after eating the food rather than before food.

We make very stupid decisions when we are stressed. There's also a popular quote: 'Don't promise when you're happy, Don't reply when you're angry, and don't decide when you're sad.'

We feel frightened even if we watch a video of a snake or other things that evoke fear.

These are some examples. Why do we behave like this?"

This can be explained a simple concept called **Triune Brain** or **3-layered brain theory**. This theory was popularized by neuroscientist **Paul D. MacLean** in the 1960s and 1970s. The Triune Brain Theory suggests that the human brain consists of three major evolutionary components, each representing distinct stages of development:

Reptilian Brain (Brainstem/Lizard Brain): This is the most primitive part of the brain, responsible for essential survival functions such as breathing, heart rate, and basic instincts. It controls autonomic functions and is shared with other vertebrate animals.

Limbic System (Paleomammalian Brain): The limbic system is associated with emotions, memory, and motivation. It includes structures like the amygdala, hippocampus, and hypothalamus. This part of the brain is more developed in mammals and plays a significant role in emotional experiences and social behaviors.

Neocortex (Neomammalian Brain/Human Brain): The neocortex is the most recent and highly developed part of the brain in humans. It is responsible for advanced cognitive functions, such as conscious thought, language, reasoning, problem-solving, and complex decision-making. This part of the brain sets humans apart from other animals and is involved in higher-order processing.

These are the 3 different layers of brain. Now we will see different type of communications between layers.

Limbic layer to Reptilian Brain:

Threat Response: When the limbic brain perceives a potential threat or danger, such as seeing a predator or encountering a hazardous situation, it activates the “fight-or-flight” response. This response involves the release of stress hormones like adrenaline and cortisol. The limbic brain then communicates with the reptilian brain (brainstem) to initiate the physiological changes needed for survival. The reptilian brain controls autonomic functions like increased heart rate, dilated pupils, and increased blood flow to muscles, preparing the body to either confront the threat or flee from it.

Emotional Regulation: The limbic brain, particularly the amygdala, plays a crucial role in processing emotions. When a situation triggers an emotional response, such as fear, joy, or anger, the limbic brain processes this information and communicates with the reptilian brain and other brain regions, including the neocortex. This communication allows for the integration of emotional experiences with other cognitive processes, helping to regulate and express emotions in a socially appropriate manner.

Social Behaviors: The limbic brain is also involved in social behaviors and interactions. It helps in recognizing facial expressions, understanding emotional cues from others, and forming social bonds. In situations where social connections are vital for survival, the limbic brain communicates with the reptilian brain to influence behaviors such as cooperation, empathy, and nurturing.

Homeostasis: The limbic brain, particularly the hypothalamus, is involved in maintaining internal balance or homeostasis in the body. It communicates with the reptilian brain to regulate functions like hunger, thirst, and body

temperature, ensuring the body's basic physiological needs are met.

Overall, the communication between the limbic brain and the reptilian brain is an integral part of the brain's functioning, enabling the brain to respond to threats, process emotions, engage in social interactions, and maintain essential bodily functions. This intricate interplay between brain regions allows humans and other animals to adapt and survive in diverse environments and social contexts.

Neocortex to Reptilian Brain:

Executive Control: The neocortex, specifically the prefrontal cortex, is responsible for executive functions such as planning, reasoning, decision-making, and impulse control. When faced with a situation that requires a conscious response, **the neocortex communicates with the reptilian brain to modulate instinctual or impulsive reactions**. For example, if you encounter a dangerous situation, the neocortex may override an immediate fight-or-flight response and instead choose a more thoughtful and strategic approach to deal with the threat.

Emotional Regulation: The neocortex plays a crucial role in regulating emotions and tempering emotional responses generated by the limbic brain. When emotional stimuli are processed in the neocortex, it can exert top-down control over the emotional responses generated by the limbic system. **This helps in adapting emotions to specific situations and behaving in socially acceptable ways.**

Conscious Perception and Sensory Integration: Sensory information from the environment is processed in the neocortex, allowing for conscious perception and awareness. **The neocortex then communicates with the reptilian brain to coordinate appropriate responses to the sensory inputs.** For example, if you see and smell delicious food (sensory input), the neocortex might evaluate the

situation and decide whether it’s safe to approach and eat the food (conscious perception), and then signal the reptilian brain to initiate the necessary digestive responses.

Learning and Memory: The neocortex is crucial for learning and memory formation. When you learn new information or acquire new skills, the neocortex processes and encodes this knowledge. Later, during memory recall or decision-making processes, the neocortex communicates with the reptilian brain to apply previously learned information to guide behaviors and responses to various situations.

Voluntary Motor Control: The neocortex is directly connected to the motor regions of the brain. When you decide to perform a voluntary action, such as picking up an object or walking, the neocortex sends signals to the reptilian brain (brainstem and spinal cord), which then coordinates the appropriate motor commands to execute the action.

The communication between the neocortex and the reptilian brain allows for the integration of higher cognitive functions with essential survival mechanisms, providing humans with the ability to make complex decisions, exhibit self-control, regulate emotions, and adapt to a wide range of situations in a purposeful and flexible manner.

Reptialian brain to neocortex

Sensory Input: The reptilian brain, which includes the brainstem and cerebellum, receives and processes sensory information from various parts of the body and the external environment. Sensory inputs related to touch, temperature, pain, vision, hearing, taste, and smell are first processed in the brainstem.

IN CONCLUSION

Many different techniques are being use to mind game people today. Something tells me that many of these TDS'ers are victims of mind control of one form or another. They are either too busy to DO THEIR HOMEWORK using the more important parts of their brains, or very easily influenced by outside forces that we can't seen. What do you think??????
